ABSTRACT

This report portrays the nature, volume and extent of crime occurring on the campuses and housing of approximately 65 institutions of higher education in Tennessee from January to December of 1990. Following an introduction, a sample reporting form is provided, along with information on classification of offenses and calculation of crime rates. Individual summary reports for each institution follow. Each report reflects campus population data, summarizes the information provided on monthly report forms, and calculates a crime rate and a clearance rate for each offense. Offenses covered include homicide, manslaughter, rape, robbery, assault, burglary, larceny, vehicle theft, arson, forgery, fraud, embezzlement, stolen property, vandalism, illegal use/possession of weapons, prostitution, sex offenses, drug sale/manufacture or possession, gambling, family offenses, driving under the influence of alcohol or drugs, liquor law violations, drunkeness, disorderly conduct, vagrancy, and all other offenses. In 1989, the General Assembly of the State of Tennessee enacted the "College and University Security Information Act" (Public Chapter No. 317). Pursuant to the provisions of this Act, this is the second annual report published by the Tennessee Bureau of Investigation in consort with all institutions of higher education which participate in the reporting program.

This report portrays the nature, volume and extent of crime occurring on the campuses and housing of Tennessee colleges and universities for the calendar year 1990. Care should be taken in comparing the statistics included herein against those reported for 1989. The statistics reported in 1989 represent data collected for the months of August through December, whereas statistics contained herein represent data collected for the entire twelve months of 1990.

The threats brought on society through criminal activity cannot be addressed solely by law enforcement agencies; concerted efforts from every law-abiding citizen are required as well. This report will hopefully assist law enforcement, institution administrations, and government officials in adjusting their efforts in the fight against crime, as well as create an awareness within the general public that crime does exist as a threat to our communities, requiring attention from every segment of society.

Recognition is given to all institutions of higher education which consistently support this reporting program and to all individuals in government who consistently support a unified crime reporting program for Tennessee. The Bureau urges all Tennesseans to continue to cooperate in reporting crime and in applying effective crime prevention strategies.

Sincerely,

John W. Carney, Jr.
Director

I. INTRODUCTION

The Program

The "Crime On Campus" reporting program is operated pursuant to the requirements of the "College and University Security Information Act," (Public Chapter No. 317) enacted by the General Assembly of the State of Tennessee, effective July 1, 1989. The Act requires each institution of higher education to report to the Tennessee Bureau of Investigation data relating to crimes occurring on the campus and student housing. The Bureau is required to prescribe the reporting form and format for the collection of such data and to publish an annual report of the results of such data submissions from each institution.

The primary objective of the reporting program is to inform the Governor, the State and Local Government Committees, the Education Committees of the Tennessee House of Representatives and Senate, the General Assembly, other governmental officials, and the public as to the nature and extent of crime on the campuses of Tennessee's institutions of higher education. Such a report will also provide law enforcement administrators with criminal statistics for administrative and operational purposes.

In the sections which follow, a sample reporting form is provided, followed by an explanation of each offense category which has been quantified either in Part I or Part II classifications. This report form is the instrument used to report crime statistics, on a monthly basis, to the Bureau. Finally, a report is provided which summarizes the crime statistics which have been reported by each institution. The reporting period for these statistics include the twelve months of 1990. The final report summarizes the information provided from the monthly report forms for the columns labeled "Actual Offenses (Col. 4)," "Offenses Cleared (Col. 5)," and "Clearances Involving Only Persons Under 18 Years Of Age (Col. 6)." From these data, a crime rate and clearance rate has been calculated for each offense in both Part I and Part II categories. An explanation of the rate calculations is provided in the sections which follow.

Calculation of Rates

A. Crime Rate

Campus population data is tabulated, as shown on the individual institution summaries which follow, based on the 1990 Fall term campus population. Such population data takes into account all full time equivalent (FTE) undergraduate and graduate student population, staff personnel, faculty personnel, and security personnel. The rate is calculated per offense category by computing the number of offenses per 1,000 persons included in the campus population, and is computed using the following formula:

$$\text{Crime Rate} = \frac{\text{Offenses Reported}}{\text{Total Campus Population}} \times 1{,}000$$

B. Percent Cleared

The percentage of offenses which were cleared is the ratio of "Offenses Cleared" to "Actual Offenses Reported," expressed as a percentage , and is computed using the following formula:

$$\%\ \text{Cleared} = \frac{\text{Offenses Cleared}}{\text{Offenses Reported}} \times 100$$

II. INSTITUTION SUMMARY REPORTS

Follows are individual summary reports for each institution of higher education which reported the required data to TBI. Each report summarizes data reported for the period January through December, 1990. These final reports reflect the campus population data, based on Fall Term 1990, as well as summarize the information provided from the monthly report forms submitted from each institution for the form columns labeled "Actual Offenses," "Offenses Cleared," and "Clearances Involving Only Persons Under 18 Years Of Age." The cumulative total from the monthly reports was used to calculate a crime rate and clearance rate for each offense in both Part I and Part II categories. Section I provides an explanation if how the rate columns were calculated.
